The following Statement in Support of First Interim Application For Attorneys' Fees and Reimbursement of Costs of Meister Seelig and Fein LLP is submitted in support of the "First Interim Fee Application For Payment Of Interim Fees and Expenses" (the "First Interim Fee Application") of Meister Seelig & Fein LLP ("MSF" or "Applicant").

Fees and Expenses Requested

This Application seeks allowance and payment of fees and expenses incurred for the period between May 6, 2019 and September 30, 2019 in the amount of \$30,854.00 for attorney's fees, and reimbursement of costs advanced during this time period in the amount of \$17.40. This is Applicant's First Fee Application. On August 29, 2019, the Court entered an Order authorizing the employment of MSF and Seth H. Ostrow, one of its partners, as special counsel to the Debtor to prosecute an appeal of decisions of the United States Patent and Trial and Appeal Board

rejecting Debtor's patent applications. No agreement or understanding of any kind exists between Applicant or any other person or entity for the sharing of compensation received or to be rendered or costs incurred in connection with these proceedings, except as among the members of Applicant. For background MSF refers to the Application of Steinberg, Nutter & Brent, Law Corporation which is noticed for hearing at the same date and time as this application.

Narrative of Services Rendered

MSF represented Debtor in an appeal of an adverse ruling of the United States Patent Trial and Appeal Board in Reexamination No. 90/013,382 to the Federal Circuit Court of Appeals concerning one of the Debtor's patents. The services performed include filing a Notice of Appeal and drafting and filing Debtor's Appellate Brief.

Factors Relevant in Determining the Allowance of Fees

The number of hours devoted to any one proceeding is only one factor in establishing a reasonable fee for legal services rendered. The reasonableness of the fees depends also on factors such as the complexity of the proceeding, the urgency of the problems and issues presented, the economic stakes and the results obtained.

Applicant submits that the time expended for legal services performed on behalf of the Debtor was both reasonable and necessary based upon the standards adopted by Courts in awarding attorneys' fees. Applicant opines that counsel has assisted Debtor with the Patent Appeal. Applicant is informed and believes that all services incurred were reasonable and necessary when performed. The qualification of the attorneys performing services in connection with this Application are set forth at Exhibit A. Invoices for the months of July, August, and September 2019, showing the dates services were performed, descriptions of the services performed, the time

spent performing the services, and the persons performing the services, as well as the expenses incurred are set forth at Exhibit B.

Applicant additionally submits that the services were primarily undertaken by experienced Patent attorneys, and that the services performed were not "garden variety."

WHEREFORE, MSF prays that the Court enter an order allowing professional fees in the amount of \$30,854.00 for the period of May 6, 2019 through September 30, 2019; allowing reimbursement of costs advanced in the amount of \$17.40, for the period of May 6, 2019 through September 30, 2019, for a total award of fees and costs of \$30,871.40; and such further relief as the Court may deem just and proper.

Seth Ostrow assists clients with all their patent needs, including litigation, prosecution and strategic advice. He helps clients maximize their existing assets, identify new opportunities to build on them and manage the risks inherent in dealing with the patents of others. Recognizing his expertise, large technology companies have retained Mr. Ostrow to help them value patent portfolios for purchase or license, and he has been involved in some of the largest and highest profile patent acquisitions in recent years.

Mr. Ostrow has litigated patent cases all over the country, including in the patent heavy jurisdictions of Eastern Virginia, California, Delaware, and New York. He stands apart in his ability to explain complex legal and technical patent issues in simple and practical terms. He is a savvy negotiator and has extensive experience with complex business arrangements including drafting and negotiating settlement agreements, patent licenses and development agreements.

Mr. Ostrow's practice focuses on software, telecommunications, and medical devices. His experience as a software engineer gives him extensive knowledge of algorithms, computer and network architectures, and various programming languages. A sampling of his patent work in cutting-edge technologies includes:

- Software including apps, databases, and operating systems
- Internet and web functionality including algorithmic search, advertising, and Internet protocols
- Network architectures including optical fiber, WiFi and cellular communications
- Telephony and VOIP
- AI including analytics, machine learning and neural networks
- Video distribution including VOD systems, interactive television and electronic program guides
- Anchor delivery devices, catheters, stents, and embolism filters
- Financial and insurance products such as annuities and retirement investment techniques
